Journal of Automation and Control Engineering

CONTENTS

Volume 3, Number 4, August 2015

Robotics and Automation

Wheel Velocity Obstacles for Differential Drive Robot Navigation.....347
Jae D. Jeon and Beom H. Lee

Accurate Visual Loop-Closure Detection Using Bag-of-Words for Multiple Robots 354
Jung H. Oh, Seung-Hwan Lee, and Beom H. Lee

3D Motion Planning for Robot-Assisted Active Flexible Needle Based on Rapidly-Exploring Random Trees .....
.....360
Yan Jiang Zhao, Adam P. Dicker, Yan Yu, Bardia Konh, Mohammad Honarvar, Parsaoran Hutapea, Felix Orlando Maria Joseph, and Tarun K. Podder

Kalman Consensus Based Multi-Robot SLAM with a Rao-Blackwellized Particle Filterv.....368
Seung-Hwan Lee and Beom H. Lee

Enhanced Robot Pose Estimation Method Using Selective Scan Data in Structured Environments 373
WonsokYoo and Beom H. Lee

Optimal Fault-Tolerant Multi-Robot Team Design Using Robot Reliability.....378
Gyuho Eoh and Beom H. Lee

Adaptive Probabilistic Tracking with Visual Saliency Selection Reliable Particles.....385
Linshan Liu, Suiwu Zheng, and Hong Qiao

Controlling a Humanoid Robot Arm for Grasping and Handling a Moving Object in 3-D Environment without Cameras 391
Ali Chaabani, Mohamed Sahbi Bellamine, and Moncef Gasmi

Improved Path-Finding Algorithm for Robot Soccers 398
Rahib H. Abiyev, Nurullah Akkaya, Ersin Aytac, Irfan Günsel, and Ahmet Çağman

Design and Development of Human Skill Transfer System with Augmented Reality.....403
Tarinee Tonggoed and Siam Charoenseang

A Novel 3D Camera Based Supervision System for Safe Human-Robot Interaction in the Operating Room .....
.....410
P. Nicolai, J. Raczkowsky and H. Wörn

Automatic Control Systems and Its Applications

Model Predictive Control of Electric Power Systems Based on Gaussian Process Predictors 418
Tomohiro Hachino, Hitoshi Takata, Seiji Fukushima, and Yasutaka Igarashi

Design and Implementation of a System for Monitoring and Remote Control of a Greenhouse Climate Parameters 425
A. Rahali, H. Alami, and A. Hilali

Control of Shape Memory Alloy Actuated Flexible Needle Using Multimodal Sensory Feedbacks 428
Felix Orlando Maria Joseph, Madhukar Kumar, Karly Franz, BardiaKonh, ParsaoranHutapea, Yan-Jiang Zhao, Adam P. Dicker, Yan Yu, Tarun K. Podder

Experimental Assessment of a Novel Geolocation Algorithm Based on OTDOA Technique in Real UMTS Networks.....435
Juan Antonio Garc á-Fern ández, Antonio Jurado-Navas, Mariano Fern ández-Navarro, and Carlos Úbeda
