

# Journal of Automation and Control Engineering

## CONTENTS

---

### Volume 5, Number 1, June 2017

Multiple Time Analysis of Weakly Coupled Non- linear Gyroscopic Systems .....	1
<i>Shailendra Kumar Mittal</i>	
High-Performance DC-AC Power Converter Using Adaptive Control Technique for Advanced Material Machining .....	5
<i>En-Chih Chang, Wei Liu, Hongshu Huang, and Rong-Ching Wu</i>	
Hybrid Position-force Control for a Stewart Platform .....	10
<i>Cristian A. Vergara and Carlos F. Rodriguez</i>	
Robust Control of Double Inverted Pendulum System .....	14
<i>Narinder Singh and Karansher Bhangal</i>	
Determination of Potential Regenerative Braking Energy in Railway Systems: A Case Study for Istanbul M1A Light Metro Line .....	21
<i>Ibrahim Sengor, Hasan Can Kilickiran, Huseyin Akdemir, and Beyhan Kilic</i>	
Intelligent Control of a Solar Thermal Power Plant - Adaption in Varying Conditions .....	26
<i>Esko K. Juuso</i>	
Optimal Design for Three-loop Autopilot Using Multi-Constraint Optimization.....	31
<i>Mohamed A. Abd-Elatif and Qian Longjun</i>
